

How can technology help, rather than hinder, senior citizens?

Team: Sonjia, Shannen

"The Skillsfuture instructor had no patience for us... I had to go home and write out the steps in Chinese to remember everything."

- Mr Chin Koh Hoe, 77 years old

ElderTech

Self-learning tools and voice-based navigation

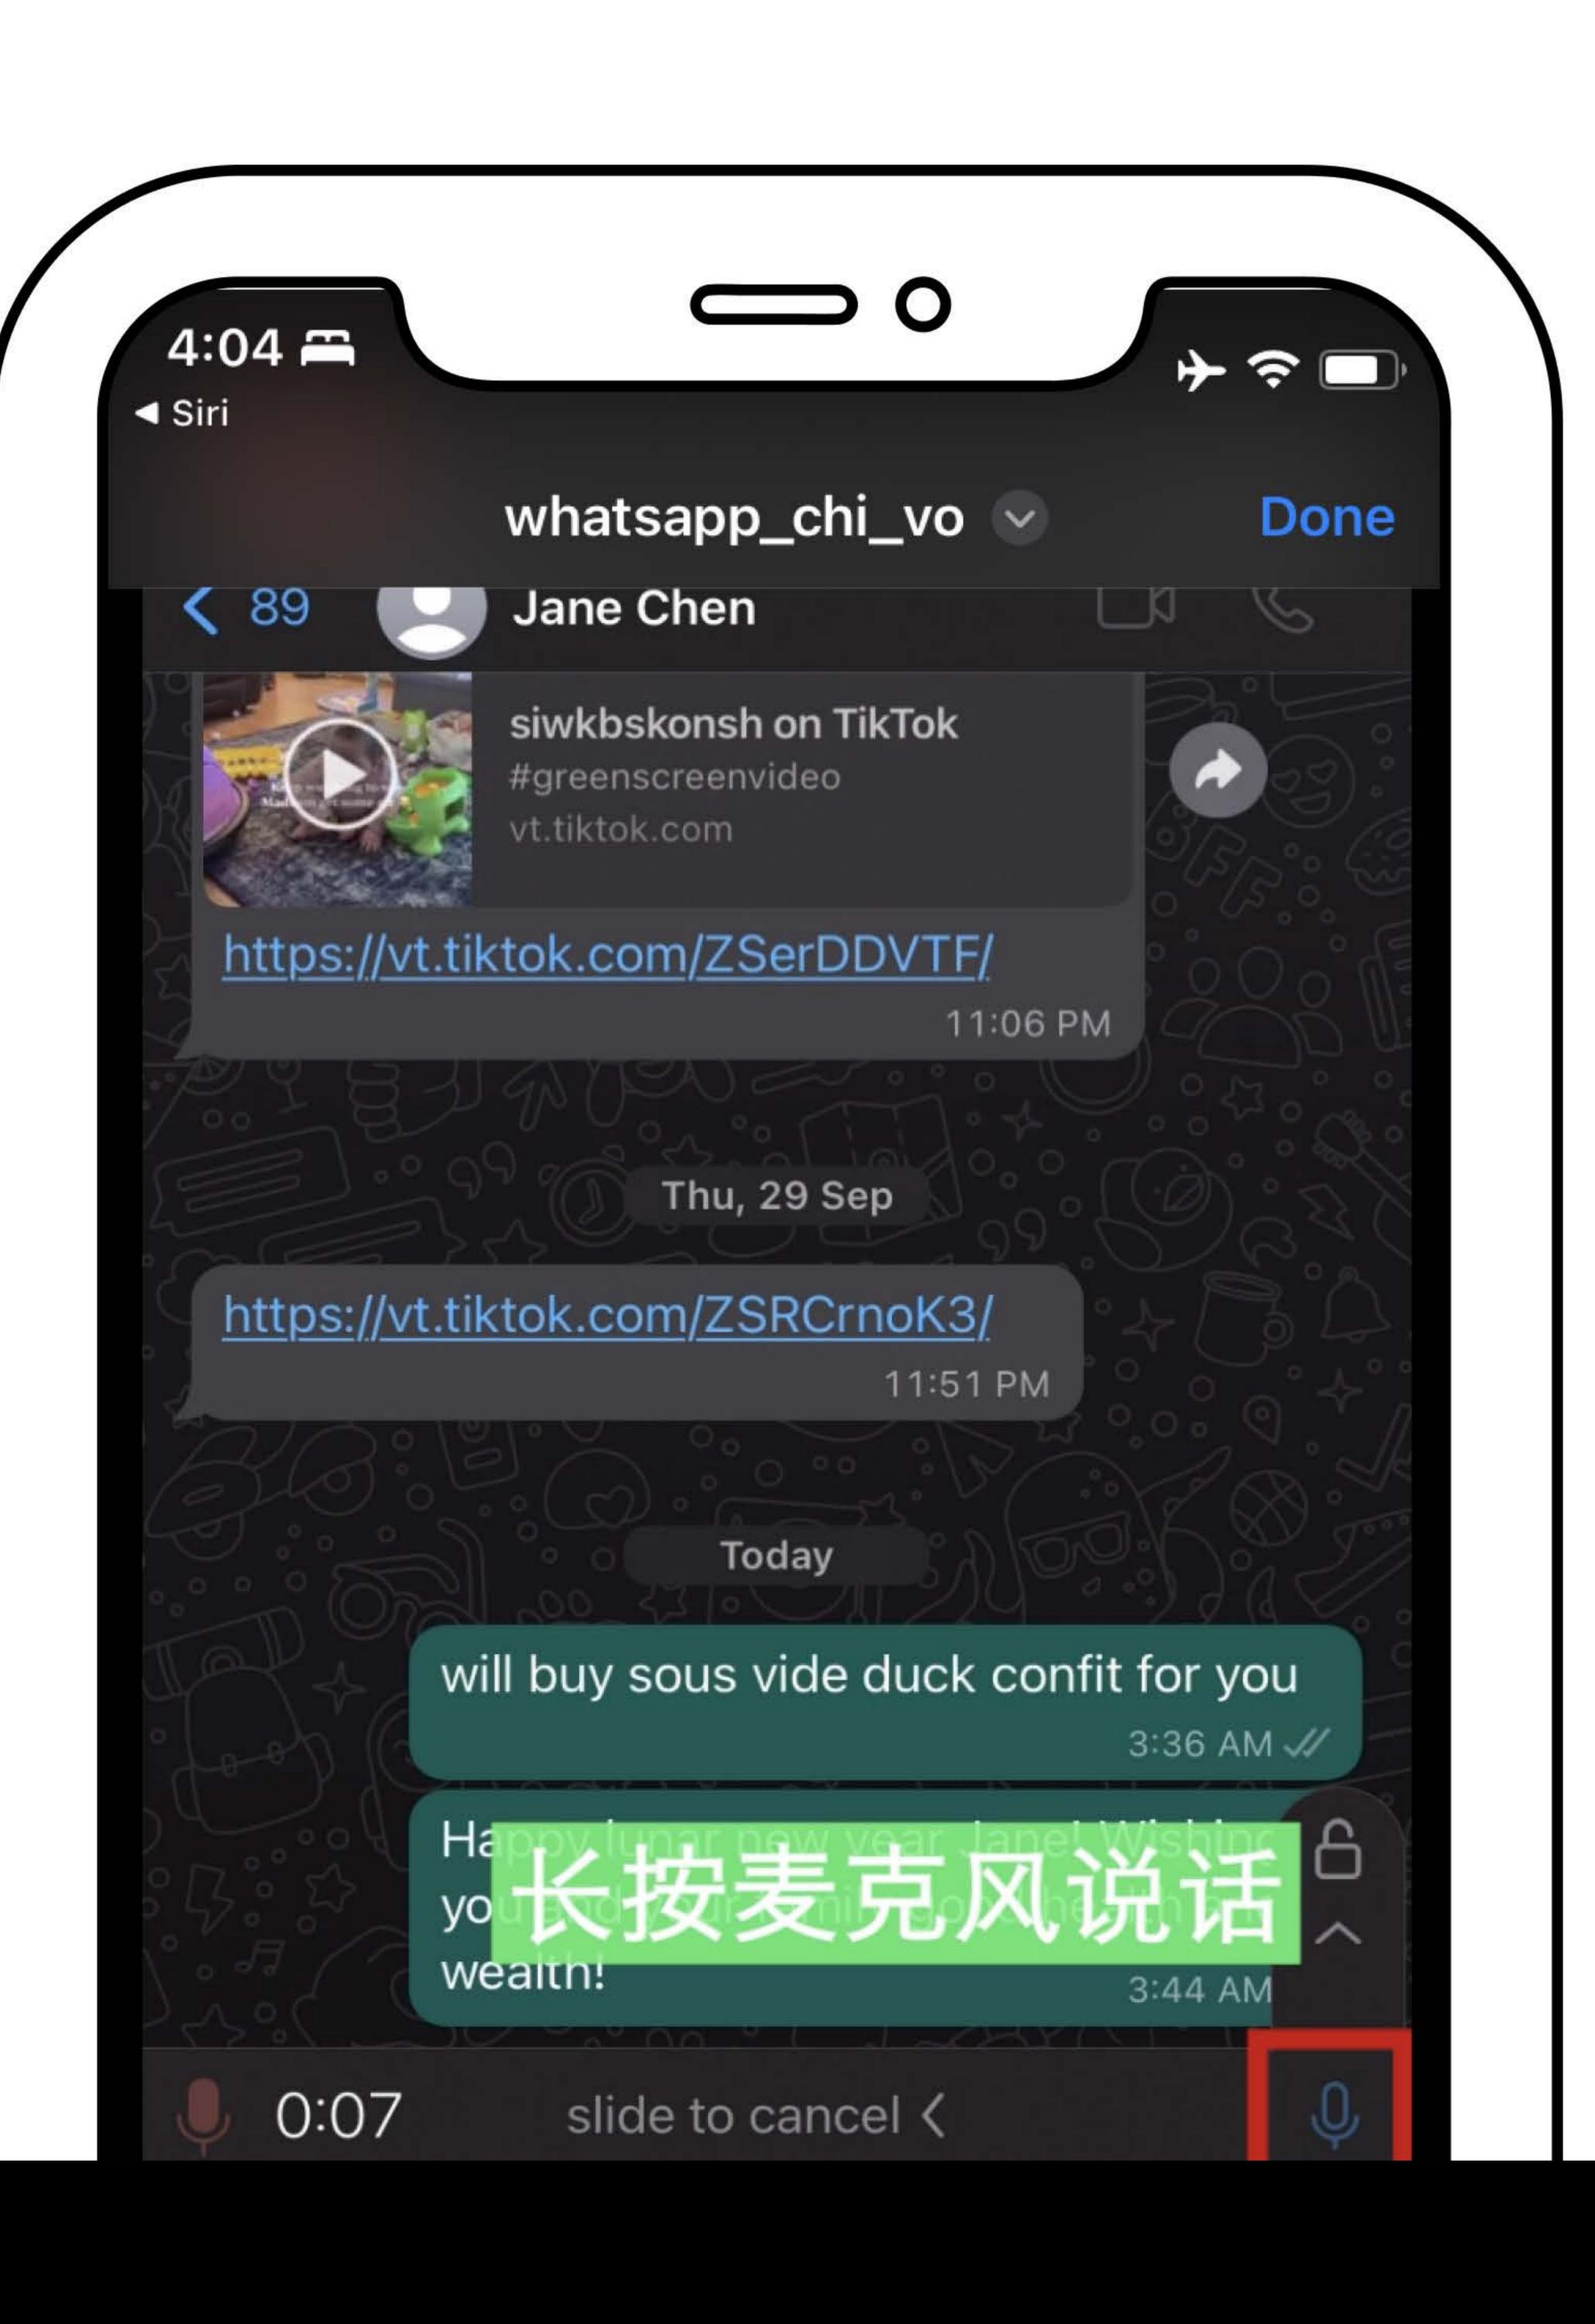

Our prototype

We created a package that downloads self-help videos and voice shortcuts into your phone, showing the potential to help seniors **self-learn at scale** and eliminate complex screen-based navigation using **Al-powered voice commands**.

Step 1: Ask

Step 2: Watch

Optimised videos whatsapp_chi_vo Done to Seniors

- Multi-language support
- Slower, adjustable pace
- Signposting screen elements (e.g. search bar)
